**Declaration on the continuation of cooperation
between
Towns Awarded the Europe Prize**

Towns awarded the highest award of the Europe Prize by the Council of Europe are happy to assess the course of cooperation based on the agreement concluded in Udine in 1984.

This is the result of the willingness of dialogue and friendship between European authorities, which work together to develop local democracy, solidarity and European unity.

In expressing their willingness to continue active cooperation, the Mayors of the Towns Awarded the Europe Prize decide to :

- support activities aimed at strengthening partnership relations,
- continue the exchange of good practices,
- strengthen youth cooperation,
- use all means of dialogue and communication to initiate exchanges between member cities,
- to aim for tightening cooperation with the Council of Europe.

This declaration was adopted at the General Assembly of the Towns Awarded the Europe Prize, which was organised by the City of Częstochowa on September 15th, 2020, in an online format.
